Welcome To The First Edition of the CNC Electronics Newsletter

Monitors

With a team of dedicated CNC monitor engineers in house, CNC monitors are a specialism of CNC Electronics with over 5000 monitor replacements and LCD/MDI rebuilds having been built across the group.

Offering [CNC monitor](#) services for over 101 models of CRT for CNC machine tools from over 17 manufacturers, services include repairs and rebuilds (rebuilt new monitors with new electronics, tube, cabling).

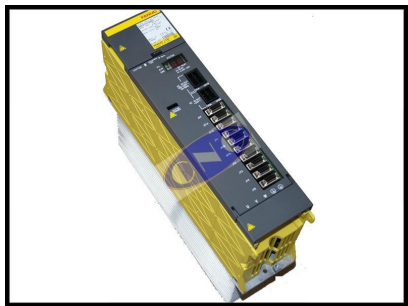

[Fanuc replacement monitors](#) are offered as new and are available as 14, 12, and 9 inch color using a LCD monitor display. These come with a 2 year warranty as standard.

Fanuc CRT replacement 9" monochrome green and amber monitors and some used (fully tested) exchange monitors are also available. These come with a 12 month warranty as standard.

With replacement monitors for Mazak, Hitachi, Siemens, Matsushita, Tatung, Heidenhain, Fanuc, General Electrics, GE Fanuc, Yaskawa, Sharp, Data Ray, Okuma, KME, NUM, Magnetek and many more in stock, CNC Electronics are able to offer a fast repair service or a reliable alternative solution at a cost effective price.

Please visit the dedicated [monitors](#) page on the website for further information or contact us for stock

information and pricing.

Fanuc Drives

IN STOCK!

With extensive stocks and a 24 hour repair service offered as standard CNC Electronics are able to offer an exchange, test and repair service on a wide range of Fanuc drive units and Fanuc Alpha modules.

All of our drives are tested in-house on our own designed FANUC test-rigs and come with a repair and exchange warranty which is 180 days, for new replacement GE Fanuc parts built by us the warranty is 12 months.

Visit the comprehensive [drives](#) page on our website for more information.

Fanuc Batteries

CNC carry an extensive stock of battery packs for Fanuc and GE Fanuc parts
